Additional Letters From the People

A SUGGESTIVE LETTER FROM SOUTH CAROLINA.

Dear Sir: It has been my wish for a long time to write you a letter telling you how greatly I appreciate your paper, The Jeffersonian, and how much good it is doing the ordinary working people of the Piedmont section of South Carolina. I only wish that it had a more general circulation among our people, for if there is a section of the country anywhere in the United States that needs an awakening in respect to the perils of Catholicism, it is this section, for we are frequently being made victims of designing politicians who are parading in the robes of innocence, while they have within their hearts the most wolfish purposes to gain their way into the fields of plunder. This is largely an industrial district in which there are many cotton mills, and at these mills live numerous unsuspecting people who are by nature as good as anybody, but they are easy marks for the loud-squalling office-seeker, for the simple reason that they have never learned to recognize a political demagogue when they hear him making his promises and swearing allegiance to the things that on the surface appeal to them and are often lead to accept him in good faith and lend him their support for an important office. We have not many Catholics among these people but there are numerous underlings and sympathizers who follow and do their bidding and some who seek political honors and responsibilities who are obligated to the Catholics and are subservient to their influence. It is almost provoking to note the lethargy and stupidity of the people who vote and take great interest in public matters who cannot be easily shown the awful danger of their position and raise the question of Papal tendencies when they go to select their officers. If labor and labor unions ever had an enemy on earth, it is the Roman Church and its kindred alliances. I wish that you could make a tour through this section and deliver a few addresses, for there is not a more fertile field for effective work than this particular section.

I appreciated your analysis of the Frank case and think that beyond the shadow of a doubt you convicted him in every mind that is open to reason and logic. Your treatment of this case has made for you thousands of friends and has given the world the only truthful and impartial record of this epoch-making event in the history of Southern society.

I read with pleasure what you have to say about our national Government and the various articles that you have written on different topics that tend to open the eyes of the common people and that suggest good and timely remedies for many of their public ills, both social and political.

Your stock is rising among the people and all that you need is a more general touch, for whoever reads your paper cannot help agreeing with you on most of your propositions if not on all of them, and the public is anxious to be shown and is anxious and ready to learn the right course to lead them to social and economic safety. It would be a fine thing if you could have at least a dozen copies of your paper at every cotton mill in this State, for they need to know the gospel of independence and freedom and there is no better place for them to get the simple truth than in your paper. I am with you in whatever you undertake for the American people.

Yours very truly, W. C. GASH. S. C.

Do you know what is meant by the Referendum and the Recall? Read Watson's Thomson speech in Wat-Company.

"PUBLISH IT OVER MY OWN SIGNATURE," SAYS HE.

Dear Sir: The time has come when every citizen in Georgia should raise his voice in defense of this grand old State, and its noble people, more especially its fair and virtuous daughters, against outrages committed by burley blacks and degenerate Jews.

Leo M. Frank's crime was one of the blackest in the history of any civilized State, and if the same crime had been committeed by a Gentile it would have been just as black. Crime is crime, whether committed by Jew or Gentile, and the error the Jews have made in this crime is trying to make a race problem out of the crime. Leo M. Frank had all the Jew money and influence that could possibly be brought to bear on the courts, in both trials in Atlanta, yet the evidence was so plain against him that the courts were compelled to find him guilty under the law. The verdict was confirmed by the Supreme Court of Georgia. The Jews were not satisfied at this, so they appealed the case to the highest court in the land, at Washington, D. C., which also confirmed the lower courts. After this the Pardon Board was appealed to and they refused commutation. But finally the appeal was made to the then Hon. Governor Slaton, who immediately and secretly commuted Leo M. Frank's sentence. Slaton was a partner in Rosser's law firm, and he, too, fell for the Jew money as did Judas Iscarriot of old. It is no new thing for Jews to be bribed and to try and bribe others. The error Slaton made was accepting the bribe. This act of Slaton's condemned him before the good citizens of Georgia for all time to come. If Slaton had not accepted Jew money as compensation for commuting Leo M. Frank's sentence he would be living in Atlanta today, enjoying all the protection any citizen may need. It is his own act that has made a coward and an outcast out of him, and not the citizens of Georgia; and we citizens are here to answer for ourselves and prove our moral worth against crime and cowardice.

May God stay the day when a citizen of this State or of these United States shall be punished for publishing the truth about crime. If Thomas E. Watson has lied about the Catholics and the Jews, there is a civil remedy for their protection. Then let them apply the remedycivil suit for damage.

Attorney-General Gregory seems to think that the State of Georgia is diseased with lynchings, and violations of Federal postal laws. If it is, then let him remove the cause and the disease will disappear.

You may ask what the cause is, so I will tell you in just as plain language as I possibly can.

When a crime is committed let the law punish the rich and the poor alike, irrespective of person, race or sect; also let the high officials. whether State or Federal, refuse to accept bribes for commutation of sentences or interference in any way, after the courts have passed their final judgment.

You may publish this letter in your Jeffersonian over my signature.

Yours very truly, Ga. J. H. BAKER.

BULLY FOR HIS MANLY INDE-PENDENCE.

Dear Sir: I noticed in last week's Macon News that the Atlanta Journal has come out editorially to defeat any candidate that Tom Watson has anything to do with. I want to state to the watch and shotgun man, that his little scatter gun never elected but one man in Georgia and Tom Watson did that for him. I have also noticed that the Americus Times-Recorder has thoroughly enson's Magazine for March. 10c per dorsed the Atlanta Journal's edicopy. The Jeffersonian Publishing torial for the State Democratic Executive Committee to adopt rules to

bind the voters of the State to make them support the nominee in the general election. The Times-Recorder says also that there are a few scallaways in Georgia who, if they don't get what they want in the primary, bolt the glorious Democratic party in the general election. If these two sanctimonious papers didn't know it, Tom Watson holds the reins in Georgia and if they don't believe it just name your candidate and see the people rally to him.

What can the Executive Committee do? Arn't we free-born Americans? And vote for whom we gentlemen please, provided we have paid our taxes? And they are very few that jump the tax collector.

If I could express my thoughts on this subject like I wanted to-but I've never been to school but very little and I can't write my views like men better educated-but as for myself, I want the Atlanta Journal and the Americus Times-Recorder and the Democratic Executive Committee to know that I am one man that votes under the Constitution of the United States of America, regardless of anybody's rules.

So I want worry you any longer, as I know you will fix the Atlanta Journal and the Times-Recorder. Very truly,

B. H. HATFIELD.

"What text in the Bible tells us to seek salvation through Mary? No such idea is in the Scriptures, old or new. No such idea was in the Catholic creed, until more than a thousand years after Christ. In fact, the dogma of the immaculate conception of this Jewish woman was not adopted by the Roman Church, until 1870."-From "The Roman Catholic Church, Its Law and Its Literature," by Thos. E.
